

Are you a supplier to the equine industry? Read on...

Ever since the versatile, home-bred Australian Stock Horse featured in the Opening Ceremony of the Sydney 2000 Olympic Games, the Australian Stock Horse Society has embraced the opportunity to increase the future international exposure of our icon.

Your support has helped achieve the current high profile we are now experiencing. The Australian Stock Horse Society has developed several partnerships, culminating in a new and exciting area within the business which will allow us to service this international demand.

We are building an international directory in the EXPORT section of our website, which will:

1. present breeders with the opportunity to list horses and breeding material for sale.
2. allow Australian companies to access affordable international exposure in the Product and Services Directory.

What does this mean for you ?

We are offering limited directory entries for members in the following product and service areas:

artificial breeding buyer agents clothing equestrian education
equine health and nutrition equine insurance freight forwarders
general horse equipment saddlers stockhorse studs transport

One entry consists of one full colour page for each product or service.

If you are not a member, you will need to become one (currently \$99). Membership forms can be downloaded at www.ashs.com.au/members

Compare our directory rates (attached) with your current advertising spend and you will see the potential in being included in an international selling arena.

If you feel your business could benefit from international exposure contact export@ashs.com.au to ensure your inclusion in the directory.

Start showing the world
what you can do!
