

# HOGANS *Crusader*

ASH Reg: 166330

**NOW STANDING AT  
"CRACOW STATION"  
THEODORE QLD**

*Hogans Crusader* was purchased by the Cox family (Crusader Partnership) in 2010 from renowned Queensland stud principals Gordon and Enid McKinlay.

Like many, we were saddened by the recent passing of Gordon who was our friend and mentor. He will be missed for the enormous contribution he made to the industry as well as the inspiration and knowledge he provided to us and so many others.

*Hogans Crusader* is one of the most exciting young sires currently standing at stud. Sired by the highly successful KNIGHTS NICHOLAS (AUS) and out of WAYMERE IM BEAUTIFUL (by KIRKBYS STUD WALLAROO), HOGANS CRUSADER's scale (16hh), elevation, style and bone are outstanding and his athleticism and temperament are exceptional.

*Hogans Crusader* has inherited the versatility, natural ability and looks of his father and has an uncanny cow sense thanks to his descendance from top working horse bloodlines such as ELLIOTT'S CREEK CADET - FS, ABBEY - FS and WARRENBRI ROMEO - IS.

*Hogans Crusader* has a strong sloping shoulder and is ideally built through the hindquarter giving him a natural performance edge. Although he has only been campaigned lightly in recent years, his progeny are now starting to turn heads in the sale ring and competition arena.

Whether you are looking to compete in campdraft, cutting, reining, challenge, dressage, polocrosse or simply to breed an enjoyable and capable riding horse, *Hogans Crusader*'s looks, athleticism and versatility make him an ideal breeding option.
