

Australian Stock Horse

# The Australian Stock Horse Society Limited

## Transfer Application

Unless the Transfer Fee is attached, it will be assumed that the purchaser will pay the fee.

For continuity of registration, the change of Registered Owner must be completed on Society records. To ensure the transfer is finalised, we provide the following important points:

- The nominee for the Last Registered Owner of the horse must sign the Transfer Application and return it to the Society with the horse's Certificate of Registration. Signature on the application must coincide with Society records.
- The New Owner must be a Financial Member of the Society. Transfers will not be effected to unfinancial or non-members of the Society.
- Payment of the transfer fee is an agreement between the vendor and purchaser. If payment is not received from the Vendor, it will be assumed that the purchaser will pay the fee.
- If the horse is purchased by multiple new owners, a Syndicate Transfer Application must be completed.
- The horse's registration will be suspended until such times as the transfer is finalised and the Certificate of Registration forwarded to the New Owner.

## Transfer Application

Purchaser's Notice: Horse Identification Verification

### PURCHASER'S NOTICE

The information contained on the registration is based on details provided to The Australian Stock Horse Society Limited by Members for the purpose of the Society's record keeping. Whilst exercising due care, the Society is unable to guarantee the accuracy or authenticity of such information and cannot accept any responsibility. Registration does not constitute proof of legal or beneficial ownership of any horse.

The Australian Stock Horse Society, its Members, Branches or related corporations, officers, agents and employees, for themselves and for those for whom they act, while exercising due care, have provided all information without responsibility and give no guarantee whatsoever as to its accuracy.

The Society is unable to provide any guarantees as to the suitability of any horse and purchasers must rely on their own enquiries in this regard. Persons making enquiries in relation to suitability should include: health, soundness, temperament, performance, ability, fertility and the like.

Horses may be offered for sale with all faults, if any, including addiction to windsucking; symptoms of being a wobbler or roarer; cryptorchids, visible deformity of the genitalia and the like. Horses or their progeny which, in the opinion of the Board, are rigs or objectionable horses, and have already been accepted for registration or recording, may be deregistered by the Board.

The purchaser is responsible for inspection of any horse prior to sale and such inspection should include advice by any qualified person, if deemed necessary.

Any person, at his or her own expense, may arrange a veterinary inspection (including drug testing) with the vendor prior to the horse being purchased. The purchaser and vendor should agree on conditions of sale prior to a veterinary inspection being conducted. The conditions of sale may include: first offer, price, delivery, veterinary or test results that render sale null and void, payment deadline and the like.

The vendor has the right to allow or decline any request to ride or handle any horse prior to the sale. Any person who rides or handles a horse at the sale does so entirely at their own risk and the Society, its Members or Branches do not assume or accept any responsibility or liability for any accident, damage, injury to horses, riders or handlers, beasts, ground, spectators, or any other person or property whatsoever. Any person requesting to ride or handle any horse must be suitably attired for riding a horse.

Comments of the vendor relating to horses for sale are based on the vendor's information. The Australian Stock Horse Society Limited is unable to establish the accuracy or authenticity of such comments and any purchaser should rely on their own enquiries in this regard.

Further advice on purchasing an Australian Stock Horse is available on the Society's website [www.ashs.com.au](http://www.ashs.com.au) - Horses for Sale page, Buyer's Guide. The Society recommends any persons wishing to purchase an Australian Stock Horse avail themselves of the information provided and seek advice from qualified persons if deemed necessary.

Any dispute in relation to any statements, guarantees or warranties offered by the vendor shall be against the vendor only. Any dispute of this nature will be for the vendor and purchaser to resolve and is not the responsibility of The Australian Stock Horse Society.

The purchaser should investigate with any past or present owner whether semen or embryos has been collected, commercial or private use, how many retained and conditions for sale or use. These conditions are between the parties involved and are not for the Society's involvement or consideration.

NOTE: Any disputes of a contractual or financial nature in relation to the breeding or ownership of a horse are not for the Society's consideration. Members in such situations are advised to seek legal advice if unable to resolve the issues.

### WARNING – HORSE IDENTIFICATION VERIFICATION

The Society recommends that members view the horse's Certificate of Registration prior to sale and verify the horse's identity - colour, markings, brands and identifying marks with the horse being sold. Horses may be REJECTED from events (including Approved Sales) if the Society Inspectors responsible for checking the identity of the horse has detected any of the following:

- The white markings described on the horse's registration papers are not visible for the specified body part on the horse presented for inspection.
- The horse has white markings that are not indicated on the horse's registration papers for the specific body part.
- None of the brands described on the horse's registration papers are clearly visible on the horse presented.
- The visible brand on the horse presented is not identical to the brand described on the horse's registration papers.

The Society Inspectors must REJECT a horse from an ASH event (including an Approved ASH Sale) if the identity of the horse is not acceptable under the Brands and Markings Policies. The Brands and Markings Policies stipulate the Society's requirements and situations whereby a horse would be REJECTED from an ASH event.

### GENETIC DISORDER TESTING (OLWS, HYPP, HERDA, PSSM1, MH, GBED)

- All Sire Registered stallions must be tested for Genetic Disorders by 1st August 2019. Results will be noted on the horse's registration.
- Effective Immediately, ALL stallions/colts (any age) being Sire Registered will require Genetic Disorder testing. Any horse that returns a Positive Test as a carrier or affected for a Genetic Disorder will be REJECTED for Sire Registration.
- All female and entire progeny born prior to 1st August 2020, being progeny of horses testing positive to a Genetic Disorder (carrier or affected), must be tested and the results will be NOTED on the horse's registration and the Online Stud Book.
- All female and entire progeny born after 1st August 2020, being progeny of horses testing positive to a Genetic Disorder (carrier or affected), must be tested for Genetic Disorders and results must be NEGATIVE to be accepted for registration.
- All female and entire PROGENY of a horse returning a Positive Test will be required to be tested for Genetic Disorders and Parentage Verified within three months of notification by the Society. Registration of any progeny not tested within 3 months will be SUSPENDED. With regards to deceased or suspended progeny, the next generation of female and entire descendants must be tested for Genetic Disorders
